PREFACE

The Georgia State Data Center began publishing the Georgia Descriptions in Data series as an answer to the demand for an annual statistical publication covering a variety of subjects. This book is designed to give the reader an overview of Georgia from a statistical perspective. Each edition contains some data that is routinely updated as well as data which is unique to that specific edition. Every effort has been made to publish the latest available data.

Georgia Descriptions in Data 1989 contains data from the 1987 Census of Retail Trade, as well as data on education, households, public assistance, and income for Georgia and its counties and metropolitan statistical areas. Georgia Descriptions in Data 1988 contains data on population, education, transportation, industry and health. Georgia Descriptions in Data 1987 contains data on State government expenditures, employment, education and population. Georgia Descriptions in Data 1986 contains data on service industries, per capita personal income and population. Georgia Descriptions in Data 1985 focuses on education data for Georgia, but also contains information on retail sales, employment, income, government expenditures and public assistance. Georgia Descriptions in Data 1984 contains commuting data for Georgia counties, data on employment, agriculture, business and housing. Georgia Descriptions in Data 1983 and Georgia Descriptions in Data 1982 focus on population, income, education and housing data from the 1980 census.

We now have available electronic copies of the 1985, 1986, 1987, 1988 and 1989 editions on diskette. Suggestions of new subject areas to include are welcomed. For this purpose, or for more information on a table, please contact Robin Kirkpatrick with the Division of Demographic and Statistical Services of the Office of Planning and Budget at (404) 656-0911 (or GIST 221-0911).

3. GEORGIA STATE DATA CENTER PROGRAM

The Georgia State Data Center Program is a cooperative arrangement between the U. S. Bureau of the Census and the Georgia Office of Planning and Budget. Additional participants in the Program are as follows:

The Georgia Department of Community Affairs
Emory University Library
Georgia State Health Planning Agency
University of Georgia Libraries, Data Services
Albany State College Library
Georgia Southern College Library
Georgia State University Library
Mercer Law School Library
University of Georgia Main Library
Georgia Institute of Technology Main Library
Georgia Regional Development Centers

The fundamental objectives of the Program are as follows:

1. Provide access to census data and assist local governments, planning commissions, and private businesses in utilizing the information.

2. Promote an even distribution of services to all areas of the State.

3. Expand the number of persons qualified to offer training and technical assistance to others on such subjects as what census statistics are available, how to read census tables and tape technical documentation, and approaches to effective use of the data.

4. Develop new methods for improving the distribution and utilization of data from the 1980 Census.

5. Increase user awareness of census products.
